"Donna has been a friend to me and a friend to those I have brought into her home as well. She has been gifted in a psychic nature as well as in kindness, generosity of spirit, and love.

Those who wish to learn about the spiritual and psychic could not have a better teacher. Donna has done readings for friends and me, which have led our lives to better places. I have full trust in her abilities and what she has to teach is a gift to us all."
